

Progress ICAD approved analyses (updated Oct 14)

Analysis No	Lead applicant	On behalf of partner	Title	Approval date	Date release	Expire date protected access	Status
1	L Sherar	Steering Committee	International children's accelerometry database (ICAD): Design and methods.	NA (core)	NA	NA	Published <i>BMC Public Health 2011</i>
2	U Ekelund	SPEEDY	Combined Associations of Moderate-to-Vigorous Physical Activity and Sedentary Time with Cardio-Metabolic Risk Factors in Youth (ICAD)	NA (core)	NA	NA	Published <i>JAMA 2013</i>
3	L Sherar	Steering Committee	The association between parental education, weight status and objectively assessed physical activity and sedentary behaviour in youth: A cross country comparison	NA (core)	NA	NA	In submission
4	A Cooper	PEACH	A cross country comparison of body mass index, accelerometer assessed physical activity and sedentary behaviour of children and adolescents	NA (core)	NA	NA	In circulation
5	S Kwon	Iowa Bone Dev Study	Tracking of accelerometry-measured physical activity during childhood: ICAD pooled analysis	Mar-11	Sep-11	NA	Published <i>IJBNPA 2012</i>
6	G Cardon	Belgium Pre-school Study	Are patterns of sedentary behaviours and physical activity associated with weight status in preschool aged children?	Mar-11	Sep-11	Sep-12	Discontinued and open for new proposals
7	K Wijndaele	PEACH	Breaks in sedentary time and cardiovascular risk in children and youth.	May-11	Apr-13*	Jul-15 [#]	In progress
8	A Timperio	CLAN/HEAPS	Independent associations between TV viewing and weight status and cardio-metabolic health among children.	Feb-12	Apr-13*	Sep-14 [#]	In progress
9	N Ridgers	CLAN/HEAPS	Physical activity levels according to different cut-point thresholds and associations with health outcomes.	Feb-12	Apr-13*	Sep-14 [#]	In progress
10	J Salmon	CLAN/HEAPS	Is children's TV viewing and computer use more strongly associated with light-intensity than moderate- to vigorous-intensity physical activity? (Brief report)	Feb-12	Apr-13*	Sep-14 [#]	In progress

Analysis No	Lead applicant	On behalf of partner	Title	Approval date	Date release	Expire date protected access	Status
11	U Ekelund	SPEEDY	Does physical activity moderate or modify the association between birth weight and cardio-metabolic health outcomes.	Feb-12	May-13	Oct-14 [#]	In progress
12	R Pate / J Mitchell	TAAG	Physical Activity, Sedentary Behavior and Childhood Obesity.	Feb-12	Apr-13*	Jan-15 [#]	In progress
13	U Ekelund / M Hildebrand	Open access	Associations between birth weight, waist circumference and sedentary time – a mediation analysis.	Mar-12	May-13	May-14	In submission
14	A Atkin	Open access	TV viewing and computer use in children and adolescents: A descriptive epidemiology using the International Children's Accelerometry Database	Jan-13	May-13	May-14	Published <i>Am J Prev Med</i> 2014
15	R Pate / J Moore	Open access	Association of physical activity intensity with adiposity and cardiometabolic biomarkers in youth.	Jun-13	Jul-13	Jul-14	In progress
16	A Cooper / A Goodman	Open access	Seasonal variation in physical activity and day length	Jun-13	Jul-13	Jul-14	In press <i>IJBNPA</i>
17	K Corder	Open access	Characterising age-related differences in the ratios of vigorous physical activity and moderate physical activity	Oct-13	Oct-13	Apr-15 [#]	In progress
18	B Hansen	Open access	Effects of reallocating time to sedentary or active behaviours on markers of cardiovascular disease risk factors in children and adolescence	Jan-14	Jan-14	Jan-15	In progress
19	B Hansen	Open access	Does age affect the magnitude of associations between sporadic and bouted time spent in moderate-to-vigorous intensity physical activity and adiposity and markers of cardio-metabolic risk factors in children and adolescents?	Jan-14	Jan-14	Jan-15	In progress
20	K Brazendale	Open access	Not all minutes are created equal: Rosetta Stone Part 2	Mar-14	Mar-14	Mar-15	In submission
21	F Harrison	Open access	Weather and physical activity; how and why do relationships vary between countries?	Sep-14	Oct-14	Oct-15	In progress

*: Due to reprocessing of accelerometry data, all data releases were renewed in April 2013.
